## Delivering More Care At Less Costs: The Benefits Of Building Smart Care Teams In Behavioral Health

Join Core Solutions & OPEN MINDS for an exclusive executive web briefing on ways Smart Care Teams can provide more care while saving your organization money through harnessing the power of consumer engagement

**Gettysburg, Pa. (October 29, 2014)** — In the changing health and human service field, care delivery models such as health homes or patient centered medical homes (PCMH) are often out of reach for most behavioral health care providers as they require large investments in time, technology, and money. In response, Smart Care Teams are an emerging trend in health care which involve both traditional and non-traditional service delivery teams. Smart Care Teams continue to focus on consumer-centered care which utilizes innovative technology, but are more focused on specific service delivery challenges.

Hear Ravi Ganesan, President of Core Solutions, discuss why next generation Smart Care Teams can deliver more care at less costs through utilizing less invasive technology and harnessing the power of consumer engagement. We'll also explore how emerging technology toolkits such as big data, personalized evidence-based medicine, and real-time clinical feedback can be utilized across multiple behavioral health settings such as prevention, outpatient, and crisis intervention services. During this exclusive 90-minute executive web briefing, "Creating Smart Care Teams On Health 2.0 Technologies," scheduled for November 13<sup>th</sup> at 2:00pm EST, our presenter will answer key questions, such as:

- What are the trends driving the adoption of Smart Care Teams?
- Why can Smart Care Teams save 20-30% on services provided?
- What are some practical examples of building Smart Care Teams in behavioral health?
- How do I get started on my organization's Smart Care Team journey?

To learn more about this executive web briefing, or take advantage of free online registration, please visit: <http://www.openminds.com/event/creating-smart-care-teams-health-2-0-technologies/>

All registrants will receive (at no charge and regardless of attendance) a recording of the webinar and an electronic copy of the presentation slides at its conclusion.
