Oesterlen Services for Youth Selects Core Solutions

Flexibility, Modern Design and Functionality Make Core Cx360 EHR The Right Choice for Oesterlen

(King of Prussia, PA) – [Oesterlen Services for the Youth](#) (Oesterlen) a behavioral health provider serving children and young adults in Ohio and [Core Solutions, Inc. \(Core\)](#) the progressive leader in integrated behavioral health Electronic Health Records (EHR) that transform the behavioral, medical and social services experience announced today that Oesterlen has selected Core as its electronic health record of choice for their behavioral health organization.

Oesterlen's selection process was rigorous and they investigated many of the first generation, behavioral health EHR solutions available in the market. After careful consideration, Oesterlen decided Core was the right partner for their organization and the capabilities within Core's second generation EHR, Cx360, were best suited for the Oesterlen organization.

"The capabilities within Core's EHR stood out from the rest that we saw," said Mark Derr, Director of Operations at Oesterlen. "As the selection process continued Core also demonstrated that they understood our industry and how child and youth services are administered to our population. Additionally, the modern design of Core's EHR makes the navigation intuitive and puts the information we need at the fingertips of our clinicians and care managers."

"Oesterlen provides services to one of the populations that need it the most, the children and young adults of Ohio, said Ravi Ganesan CEO of Core Solutions. "We're honored to have Oesterlen as our first Ohio customer and that Cx360 will support the great work they do for their community."

About Core Solutions, Inc.

Core Solutions is the progressive leader in transforming the behavioral, medical and social services experience for behavioral health providers, consumers and state agencies. Core's Integrated Behavioral Health EHR platform, Cx360, allows for the improvement of the provider, consumer and payer relationship through increased consumer-centric collaboration which results in improved outcomes. This is accomplished through our ability to simplify the end-to-end behavioral health experience, deliver integrated care coordination, improve consumer engagement and streamline accurate provider reimbursement.
