Center Point Counseling Selects Core Solutions

Core Continues To Expand Wisconsin Presence With Center Point Counseling

(King of Prussia, PA) – [Center Point Counseling \(Center Point\)](#) a cooperative of mental health professionals serving the communities of Vernon County Wisconsin and [Core Solutions, Inc. \(Core\)](#) the progressive leader in integrated behavioral health Electronic Health Records (EHR) that transform the behavioral, medical and social services experience announced today that Center Point has selected Core as its enterprise electronic health record for their mental health organization.

Center Point's enterprise EHR selection process focused on finding the right vendor partner that would supply a rich set of out the box capabilities coupled with a modern architecture that allows for the flexible configuration of the EHR platform to meet the unique needs of Center Point's cooperative model for care. The overall objective of the EHR software is to automate their administrative, clinical and billing process to prepare the organization to take advantage of the Meaningful Use Stage 2 incentive program. At the conclusion of the selection process, which involved multiple EHR vendors, Center Point decided Core was the right partner for their organization.

"We understand our EHR journey is highly predicated on picking the right EHR partner and Core demonstrated their industry knowledge and skills very early on in our meetings," said Megan Tully Administrative Leader and EHR Project Manager for Center Point Counseling. "Additionally, as we reached the demonstration phase of our selection process Core's Cx360 EHR platform user interface was much more intuitive than the other interfaces we saw and we know this is an important factor for driving clinician adoption of the system."

"We're excited by the opportunity to add Center Point to our community of Wisconsin behavioral health providers, said Ravi Ganesan CEO of Core Solutions. "We are looking forward to working with Center Point and supporting them with the modernization of their operations so they can increase their ability to provide services to the Wisconsin community."

About Core Solutions, Inc.

Core Solutions is the progressive leader in transforming the behavioral, medical and social services experience for behavioral health providers, consumers and state agencies. [Core's Integrated Behavioral Health EHR platform, Cx360](#), allows for the improvement of the provider, consumer and payer relationship through increased consumer-centric collaboration which results in improved outcomes. This is accomplished through our ability to simplify the end-to-end behavioral health experience, deliver integrated care coordination, improve consumer engagement and streamline accurate provider reimbursement.
