

Core Solutions Announces New Headquarters to Accommodate Growth

Core continues to hire to support increased customer adoption of integrated behavioral health electronic health record technology

King of Prussia, PA -- [Core Solutions, Inc. \(Core\)](#) the progressive leader in integrated behavioral health Electronic Health Record (EHR) technology that transforms the behavioral, medical and social services experience for behavioral health providers, consumers and state agencies, announced today the opening of its new corporate headquarters. The headquarters is located in King of Prussia, Pennsylvania and it will provide the company with approximately 25% more space, which will be used to support the current and anticipated growth of the company.

In 2013, Core has already experienced a 25% growth in its customer base. The company's growth has been driven by the increased demand for electronic health records in the behavioral health industry. As a result, organizations across the country have purchased [Core's powerful Integrated Behavioral Health EHR solution – Cx360](#). Core's Cx360 enables behavioral health providers to simplify the end-to-end behavioral health experience, deliver integrated care coordination, improve consumer engagement and streamline accurate provider reimbursement.

Additionally, Core's workforce has grown by over 30%. Core has significantly increased its sales team, while adding other key personnel in implementation, development and marketing. The new team members are all seasoned healthcare professionals with years of experience that range across hospitals, behavioral health providers, state governments, and health plans.

"Our growth is the result of our customers continued adoption of our Integrated Behavioral Health EHR Platform – Cx360," said Ravi Ganesan, president and CEO of Core Solutions. We're excited to see continued momentum by the healthcare community to integrate mental and physical health to treat the whole person. We're investing in our next level of growth by continuing to build our talented team, innovate with our SaaS technology and offer professional services so we can better serve our customers and the populations they serve."
