Core Solutions Receives ONC-ACB Meaningful Use Stage 2 Modular Certification by Drummond Group

Continued Certification Of Core Cx360 Electronic Health Record Shows Commitment To Transforming the Health and Human Services Experience

(King of Prussia, PA) -- [Core Solutions, Inc. \(Core\)](#) the progressive leader in integrated behavioral health Electronic Health Records (EHR) that transform the behavioral, medical and social services experience announced today that their [SaaS-based EHR, Core Cx360](#), has been tested and certified under the Drummond Group's Electronic Health Records Office of the National Coordinator Authorized Certification Body (ONC-ACB) program. This EHR software is compliant in accordance with the criteria adopted by the Secretary of the U.S. Department of Health and Human Services.

“Achieving certification of Core Cx360 is part of our commitment to our behavioral health customers as it supports their transition from meaningful use to meaningful results,” says [Ravi Ganesan President and CEO of Core Solutions](#). “The meaningful use stage 2 certification process represents an inflection point for our industry as it requires significant technology investment which brings us closer to delivering whole person healthcare to the populations served by the health and human services community.”

Drummond Group’s ONC-ACB certification program certifies that EHRs meet the meaningful use criteria for either eligible provider or hospital technology. In turn, healthcare providers using the EHR systems of certified vendors are qualified to receive federal stimulus monies upon demonstrating meaningful use of the technology – a key component of the federal government’s push to improve clinical care delivery through the adoption and effective use of EHRs by U.S. healthcare providers.

Core Cx360 EHR, met the requirements for modular certification for both ambulatory and inpatient provider services. Core’s Integrated Behavioral Health EHR platform, Cx360, allows for the improvement of the provider, consumer and payer relationship through increased consumer-centric collaboration which results in improved outcomes. This is accomplished through our ability to simplify the end-to-end behavioral health experience, deliver integrated care coordination, improve consumer engagement and streamline accurate provider reimbursement.
