**Core Solutions Announces First EHR Provider Partner in Colorado**

(King of Prussia, PA) – [Core Solutions, Inc.](http://www.coresolutionsinc.com), the progressive leader in integrated behavioral health Electronic Health Records (EHR) that transform the behavioral, medical and social services experience, today welcomed Excelsior, its first EHR provider partner in Colorado. Excelsior is an organization that strengthens and educates at-risk youth and families to achieve lasting success through a continuum of innovative treatments and solutions.

Excelsior partnered with Core Solutions for the flexible capabilities and features of its Integrated Behavioral Health EHR Platform, Cx360, after a 12 month search that considered nearly 10 other solutions and providers. In addition to its agility, reputation and competitive price, Cx360 will offer Excelsior with robust reporting functionality that will be critical as the organization transitions into providing business partners with key indicators related to service delivery outcomes.

“When Cx360 is implemented, we will simplify our billing processes, improve productivity, drive accountability and be able to report quickly on key business and service delivery metrics,” said Silvia Hodlewsy, Chief Financial Officer of Excelsior. “Furthermore, as a cloud-based system, Cx360 will also increase efficiencies by enabling our providers to connect with any device anywhere with an internet connection.”

As the first Cx360 provider partner in the state of Colorado, Excelsior will serve the state as both an example and educational resource on the various ways an EHR platform, like Cx360, can advance population health and information management to achieve improved outcomes and relationships between providers, consumers and payers. With missions both focused on enabling progress for constituents throughout the health and human services care continuum, Core Solutions and Excelsior will benefit mutually from bringing advanced care delivery solutions to the western United States.

“From the start, we connected very well with the Excelsior team, and we are looking forward to becoming an integral part of their mission and vision in Aurora and throughout the state of Colorado,” said Ravi Ganesan, President and CEO of Core Solutions.
