

## **Core's Integrated Care Platform Makes Cx360 the Product of Choice for Lighthouse Youth Services**

**October 19, 2016 -- King of Prussia, PA** – Lighthouse Youth Services announced the selection of Core Solutions, Inc., a progressive leader in providing Electronic Health Records software to government, non-profit and commercial entities in the health and human services industry, to configure and implement Cx360, an enterprise Electronic Health Records (EHR) platform. This selection was made after nearly a year of reviewing various EHR solutions.

“Throughout the entire evaluation process we felt a sincerity and level of trust that we could rely on Core to be a good partner,” said Cathy Goold, Chief Administrative Officer, Lighthouse Youth Services. “They were candid about what they could and could not do, they listened and demonstrated how they could help solve our challenges, and we were able to visualize and experience how the customer support and service would be with them as a partner.”

Operating since 1969, Lighthouse is nationally recognized as an innovator in services for families in crisis, for homeless youth and young adults, and for youth learning to become self-sufficient. The agency provides early childhood services, behavioral health and psychiatric services, home-based services to families, services to youth engaged with the juvenile justice system, community residential treatment facilities, foster care and adoption, independent living services and opportunities through education to the youth and their families in the Cincinnati, Ohio region.

“Lighthouse provides a wide range of services, and the flexibility of the Cx360 platform will allow us to have a truly integrated care platform for the clients we serve,” said Goold.

“We share a similar Mission and Values to that of Lighthouse,” said Ravi Ganesan, CEO and President, Core Solutions. “We are truly looking forward to this partnership and helping Lighthouse reduce costs, increase access and provide better outcomes reporting to further their mission of advancing the well-being of those they serve.”

### **About Core Solutions, Inc.**
